

Appropriations Subcommittee

Energy and Water

Requesting Organization

U.S. Army Corps of Engineers

Saint Paul District

Sibley Square and Mears Park

190 5th Street East, Suite 401

Saint Paul, MN 55101

Purpose of Request

The Environmental Management Program (EMP), a multi-agency program administered by the U.S. Army Corps of Engineers, the U.S. Geological Survey, the Fish and Wildlife Service, and the states of Minnesota, Wisconsin, Iowa, Illinois, and Missouri, has been the centerpiece of ecosystem restoration activities in the Upper Mississippi River (UMR) basin. The program has enjoyed broad bipartisan support from Congress since it was established through the 1986 Water Resources Development Act (WRDA).

Amount Requested

\$20,000,000
